

From the State of Arizona:

Hello Larisa Phillips,

If you **will be** offering this course in Arizona, you will need to apply for course approval with the Department of Financial Institutions.

If you **are not** offering this course in Arizona: If your course is approved within the State it is being offered and is approved by that State for Appraisers education, an appraiser may use this course toward their Arizona renewal c.e. hours.

Another States approved education must meet Arizona's requirements of:

- Course hours must be 3 or more hours
- USPAP must be completed in a classroom
- USPAP must be taught by a certified USPAP instructor

Use the certificate that is issued for the State it is approved in. This certificate should contain that States approval, or on an attachment.

Jessica Sapio
Licensing Administrator
